

Tree Planting Ceremony

Beautify and Strengthen our Natural Environment

**All congregants are urged to attend a special tree planting ceremony
(time, date, place)**

In addition to adding beauty to our world, this ceremony will be both symbolic of our responsibility to care for our environment and a practical step towards beautifying our community and improving our environment. It is also a practical step towards beautifying our community and improving our environment. It is also a practical step toward reducing the threat of global warming, since trees absorb carbon dioxide, a major greenhouse gas, and produce oxygen.

Congregants are also encouraged to plant at least one tree themselves this spring, either at home or at some other appropriate location. Copies of the tree planting ceremony, as well as instructions for ordering and caring for new trees, are available from the synagogue office.
